This is the login screen of Chanakya. After successful login, you will find the dashboard as shown below in Step 2.

If this is your first login or you have not changed the default password, then you may find the password change screen after successful login.

Step2:-Finger Print Registration for new biometric.

As the new biometric device is going to be used in all locations, it is mandatory to register your finger print in the new biometrics system. For this please use the “Register Finger print” option in the Attendance menu as per the below screen

(Users Dashboard of the Chanakya System)

Step3:- Upload Your Finger Print.

Here click on the “Upload Finger” button and use the new device to capture the finger print and upload it in the server.

Employee Name	:GUPTESWAR PRASAD PATNAIK	
Office Location	:OESL, HEAD OFFICE	

	-	Upload Finger

Step4:-Register Your Finger Print.

Once the system has captured your finger print, you will find the button for “Register Finger Print”. Here click on the button and this will save the image in the System. Once it is registered, there is no need to register again and will continue to give attendance as usual in the Chanakya system.
